The stockholders of the W. E. Cheswell Cotton M'lls met in the town of Westminster, S. C., on Saturday, December this 1899, for the purpose of organization. It was ascertained that the capital stock of one hundred thousand dollars had been subscribed by seventy-seven persons, seventy-two of whom are citizens of Oconte county. The stock had been civided into one thousand shares, eight hundred and eighty-five shares of which were taken by people in this county and one hundred and fifteen by persons abroad. After ascertaining that the whole stock had been subscribed the stockholders determined to go into an organization, which was effected by electing the following named persons as Directors, to-wit: W. E. Cheswell, W. P. Anderson, W. C. Mason, P. P. Sullivan, L. A. Edwards, J. S. Carter, John T. Dyar, A. Zimmerman and Campbell Courtenay. The Directors elected W. E. Cheswell as President of the Company and A. Zimmorman as Secretary. Work on building the factory will be commenced at once. The engineer and draughtsman of the company will be in Westminster next Thursday, the 14th instant, to lay off the grounds and make draughts of the buildings.

This enterprise adds another to the manufacturing industries of Oconee county, and, it appears, will be built almost entirely by home money. Mr. W. E. Cheswell is the moving spirit in the matter and deserves well the encouragement of our people in the enterprise. To his indomitable energy is due this new industry in our county. He can not be awarded too much praise.

The farmers of Oconee now know very little of how much benefit lerge manufactories will be to them. Such industries add to the population a non-producing class, and just to the extent of their number will there be a demand for all agricultural products. Farmers should lend all encouragement to the building of factories. In our opinion their subscription to the capital stock will prove a paying investment, but should it not pay in dollars and cents, still it will prove a good investment; it would more
